## Story

Regarded as the fundamental of life since the early days of humanity, the soil maintains its existence by developing and transforming into various shapes. Taking design, technology and functionality together for half a century with the power it gets from this soil, Ege Seramik, continues its journey with the motto of "Perfect Nature, Perfect Beauty" and with a world class environmental friendly production and service approach.

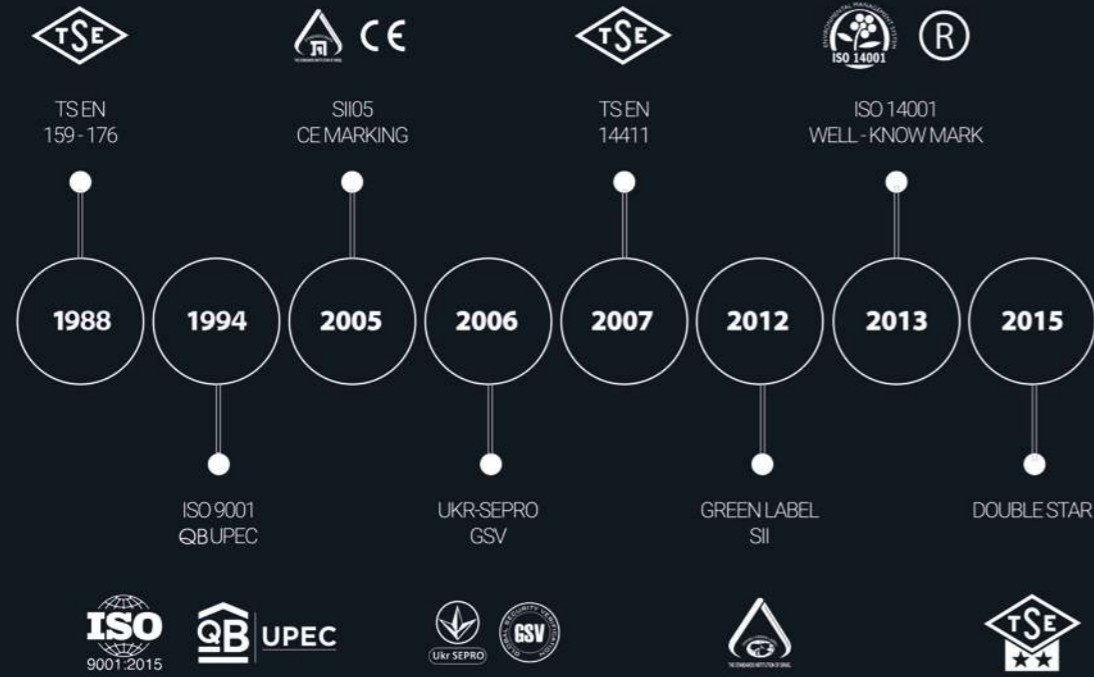

Ege Seramik is expanding its sales network everyday with the steps it has taken in line with its goal of becoming a stable "Glocal" player. Ege Seramik has maintained its innovative and dynamic structure since the day it was founded. Ege Seramik embraces the mission of being a company which does not follow the trends but creates them and this is reflected in its logo with the idea of always offering innovation and creativity.

Ege Seramik performs many firsts in terms of production, sales and marketing activities in the tile industry and it believes that high quality and customer satisfaction are indispensable for its success. The innovative product portfolio enhanced by unique design capabilities and high-tech materials responds to the demands of all international markets.

Ege Seramik is the first company that has environmental friendly production facilities with high recycling rates and runs its production, logistic and sales processes with high environmental awareness from the beginning till the end.

Ege Seramik, an Ibrahim Polat Holding subsidiary, has been successfully representing the Turkish ceramic tile industry both in Turkey and abroad for half a century since its foundation. With its steady performance, expert staff and ambition for further growth, Ege Seramik has been leading the fashion in the tile industry for half a century.

## Explore the effects of different patterns and surfaces with a **strong approach**

Ege Seramik's glazed porcelain products which combine the esthetic and the advantages of glazed porcelain by blending them with one another are the most suitable covering material for intensively-used areas.

This stainless product group was designed for surfaces that are subject to abrasive materials and have a heavy traffic such as shopping malls, hotels, hospitals, and etc.

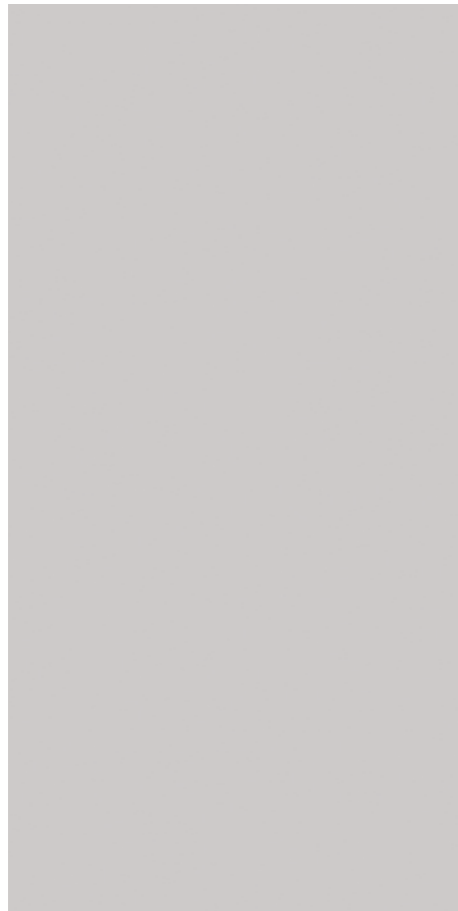

In addition to rich size and color options, opaque, bright, lappato and rectification processes can be applied on these products that are also environment-friendly.

Allow the reflection of perfect beauty to your living spaces with it's full polished surfaces.

# Elegance of Wood

## A magical balance between naturality & durability

The wood-look series of Ege Seramik that add a natural beauty to the places where they are applied are now available for all your living spaces.

The ceramics that combine the look of wood and glazed porcelain material with a decorative understanding conform to various styles such as minimalist, modern and vintage.

The wood-look series which are offered with a variety of sizes and color options in Ege Seramik's portfolio can be easily used in indoor as well as outdoor spaces! Having a natural look that envies the nature itself and warm and equally durable.

# Summer Coolness

A world that opens to endless blue...  
You will feel **the warmth in every touch.**

Ege Seramik pool ceramics, which meet the blue of the sea, give you a holiday feeling at every step.

It adds a touch of luxury to your daily life by changing the atmosphere of your pool with its unusual patterns and vibrant colors.

With its eye-catching designs, Ege Seramik turns your pool pleasure into unforgettable memories.

According to the changes in the prints of pattern due to the design of our products, the color tone changes indicated on the labels of the boxes are made as follows. When it is opened 1 box from the product you purchased, changes in the patterns and views between the tiles found in the box are varied with respect to the design of the products.

### V1 Uniform Appearance

Color and texture difference between the tiles from the same lot is very low because of the nature of the material.

### V2 Slight Variation

There are clear differences in surface texture and printing patterns among the tiles having similar colors.

### V3 Moderate Variation

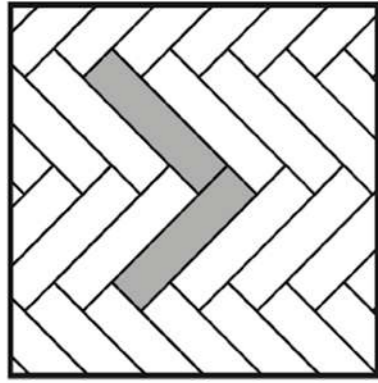

Main colors in one single tile can be found in other tiles. However color intensity shows differences between tiles. This is generally used in rustic tiles.

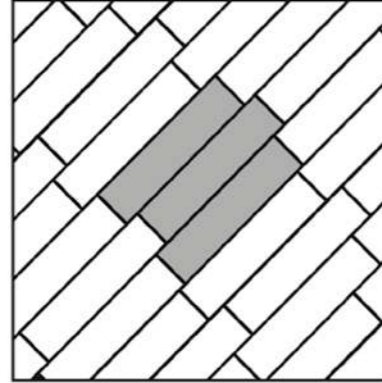

### V4 Substantial Variation

Color differences can be observed from one tile to another. Thus, color of one tile can be different from another one. However, a harmony is observed between colors. These kinds of products can be found in the boxes in a random order. This is a design approach which is generally used in rustic tiles. Color and texture variation can be controlled in our facilities. This is a parameter and it is developed in the stage of product development as a requirement of market demands and design.

## APPLICATION TECHNIQUES

Herringbone Laying

Staggered Laying ( Max 15% - % 20 )

Staggered Laying ( Max 50% )  
Half Offset Laying Is Not Recommended

Surface Quality	A minimum of 95 %of the tiles shall be free from visible defects that would impair the appearance of a major area of tiles		ISO 10545-2
Water Absorption	Ev ≤% 0,5 Individual max %0,6	Ev ≤% 0,5 Individual max %0,6	ISO 10545-3
Modulus of Rupture	min 35 N/mm2 Individual min 32 N/mm2	min 35 N/mm2 Individual min 32 N/mm2	ISO 10545-4
Breaking Strength	Thickness ≥ 7,5 mm 1300 N Thickness < 7,5 mm 700 N	Thickness ≥ 7,5 mm 1300 N Thickness < 7,5 mm 700 N	ISO 10545-4
Impact resistance	Declared value	Test value for each product	EN ISO10545-5
Coefficient of linear thermal expansion	Declared value	≤ 6,19 x 10-6 / °C	ISO 10545-8
Thermal Shock Resistance	Test method available	Resistance	ISO 10545-9
Crazing Resistance	Required	Resistance	ISO 10545-11
Frost Resistance	Required	Resistant NO ALTERNATION WITH 100 CYCLES	ISO 10545-12
Resistance to acids and alkalis	As indicated by the manufacturer	Min Class LB Min Class HB	ISO 10545-13
Resistance to household chemicals and swimming pool salts	Min Class B	Min Class B	ISO 10545-13
Resistance to Staining	Min. Class 3	Min. Class 3	ISO 10545-14
Pb-Cd	Declared value	Test value for each product	EN ISO10545-15
Scratch Hardness	min 5 Mohs	min 5 Mohs	EN 101
Wet Dynamic Coefficients Of Friction	As indicated by the manufacturer	Test value for each product	ANSI / NFSI B101.3-2020
Slippery Resistance	As indicated by the manufacturer	Test value for each product	TS EN 16165 : 2021-12
Pendulum	Declared value	Test value for each product	BS 7976-1:2002 + A1 2013 / SII 2279
